Informing the conversation about your waters

Use How’s My Waterway to learn about your water, explore data, and find out what’s happening in your community — anywhere, anytime.

How’s My Waterway provides the public with an easily accessible and understandable picture of water quality at a community, state, or national scale. Map-centric and mobile-friendly, How’s My Waterway works on all different screen sizes ranging from desktop computers and tablets to mobile phones.

What will I find?

Community: Learn about the health of your waters, identified issues, why the issues matter, and what’s being done to restore or protect the waters. Find out more about your drinking water. Discover if waters in your community are suitable for swimming or eating fish and if they support aquatic life.

State: Choose a state to find basic facts about a state’s waters, summaries of specific water assessments, a statewide survey of water quality where available, and state drinking water metrics.

National: Learn about the quality of water resources across the nation (lakes, rivers and streams, wetlands, and coastal areas) and the main challenges to our water resources nationwide. You will also find information about national drinking water quality and national drinking water metrics.
