## **2022 Nutrients Permitting Workshop**

**Kansas City, MO  
April 12-14, 2022**

This workshop is part of a series of meetings focused on nutrients permitting through a grant between EPA, ACWA, and WEF. The workshop series is intended to help support states and EPA to further identify challenges & barriers to nutrient permitting program implementation, highlight opportunities for program improvement & enhancement, showcase innovations, assist with analysis of training, guidance, tools, and other support material needs, improve administrative efficiencies, clarify roles and responsibilities, promote program streamlining, build stronger linkages to WQS & TMDLs, modernize permit terms and data management, revise program performance measures, identify program areas where targeted technical assistance would be most beneficial, and attempt to solve some of the most intractable nutrients issues.

This is the seventh workshop in a series of eight. This workshop will focus on drafting policy recommendations based on a variety of topics covered throughout the previous six workshops in this series.

### **SPECIAL THANKS TO**

United States Environmental Protection Agency, Water Environment Federation, and the Nutrients Permitting Workshop Planning Committee
