EQB Rule Consideration	February 2026
Legislative and Gubernatorial Review	Spring 2026
Rules become State Law	September 2026
EPA Review and Consideration	Summer 2026

STAKEHOLDER ENGAGEMENT

- Initial stakeholder kick-off meeting
 - Cities, state agencies, industry, tribes
 - Discussed proposed areas of focus
 - Open to other suggestions
 - Workgroup meetings based on stakeholder interest
 - Regular workgroup meetings and a final stakeholder meeting
 - Two public meetings in different areas of the state
-

STAKEHOLDER INPUT

- Some in favor of proposed selenium criteria to allow for site-specific fish tissue criteria
 - Put approval process on hold after public meetings
 - Received about 30 comments from stakeholders during the public comment period
 - Pushback mostly related to selenium, copper, and HHC
 - Requested to retain option for WER
 - Would like to see state-specific HHC
-

LESSONS LEARNED

- Engage with stakeholders individually or in smaller groups
- Start early in the process
- Try to reach consensus with stakeholders before public comment period
 - Goal is to get their agreement documented/confirmed, especially major/influential stakeholders
